WEDNESDAY, JULY 26th, 1923.

No. 29

Saving and Investing

"Investing" your money is a serious matter—not to be done in a hurry.

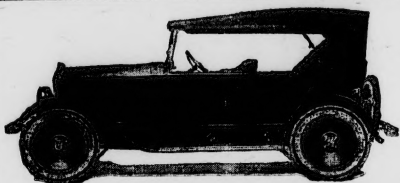

Think twice and ask advice before investing. Be guided by experience—preferably your banker's.

Successful investors always keep in close touch with their bank.

"Double your Savings; It CAN be Done."

"The Altar Stairs"

FEATURING FRANK MAYO

Century Comedy—"Hello Judge"
Seeing Canada—"Thoroughbreds"

NOTICE

The Opera House will close for the month of August and will reopen Paramount week

September, 3rd to 8th

when the features

"THREE LIVE GHOSTS" and "KICK IN"

will be presented. See further announcements later

TOWN OF DIDSBURY FOUND NOTICE

The Council has established Lots 27 and 28, Block 15, Plan Didsbury 110.0 as a Pound under the Domestic Animals Act, (Municipalities) By-Law No. 235, and appointed Wolf H. Hick as Poundkeeper.

Notices of Impoundment or otherwise in connection with animals impounded shall be posted at the Fire Hall and Post Office, Didsbury.

Said By-Law No. 235 is effective August 1st, 1923.

W. A. ARSTIN,
Secretary-Treasurer

NOTICE UNDER TAX SALE RELIEF ACT

Municipal District of Westerdale No. 311.

Take notice that certain lands have been sold by the Municipal District of Westerdale No. 311, on December 31st, 1921, under the Tax Recovery Act and the time at which the period of redemption provided by law will expire on the 31st day of October, 1923, a list of such lands can be seen in the Alberta Gazette issued June 30th, 1923.

A. McNAUGHTON,
Secretary-Treasurer.

CARSTAIRS STAMPEDE

Carstairs Stampede will be held August 1st, 1923, good Cash Prizes will be paid for Best Bucking Horse rider, and a large prize is being given for the Best Bucking Horse, and horse owners are being encouraged to bring in the bucking horses.

Gay Weadick will be the Manager of the Stampede, as we have affiliated with the Canadian Cowboy Association, and their regulations will govern.

RUGBY C. U. C.

Many of the members of the C. U. C. went to the Westcott picnic, all reported a good day. In the evening a dance was put on in Clarence Rinkhart's barn which was well attended and put a great finish to the day.

Chris Daniel, Australian tennis star, is now working on the Oliver ranch for hay and harvest. Chris is a good all round sport and attends the Club regularly.

Last Saturday night the rain somewhat spoiled the Club meeting, however quite a few turned out and those who were present enjoyed themselves very much.

Charlie Brown Jr. has just returned from a weeks holiday at Banff.

Don't forget next Saturday night at 8 p. m. Club meets for games at Rugby School.

SPECIAL

Wind up the cat and put out the clock, for it's time for the nightly dream of adventure, sitting in a wicker chair and drifting off over the tropical seas in a light-winged sailing boat. Let the silvery moon shine over the coral reefs at your feet with a protecting warmth.

The man or woman who hasn't at some time dreamed of a long trip into distant seas, with a languorous romance in the offing or perhaps an adventure among cannibals, isn't human. Nearly everyone has had such a dream and those who won't admit it are to be pitied.

The eternal charm of the South Sea moon—it's different, of course, from the moon that shines over fern, flower scenes—is exemplified in the novel which G. B. Lancaster wrote "The Altar Stairs," and the motion picture version of it, which was produced at Universal City.

The film comes to the Opera House on July 27 and 28, with Frank Mayo in the starring role and a notable cast in support.

TORONTO BANDITS MAKE GET- AWAY WITH \$125,000

TORONTO, July 25.—Staging one of the most sensational holdups in the annals of crime history in Canada, a gang of automobile bandits invaded the heart of Toronto's business section at a few minutes to ten yesterday morning, and after a gun battle, in which three bank messengers and another man who went to their assistance were wounded, escaped with \$125,000 in currency. The men were still at large at a late hour last night, with officers of the law fighting forth every effort to trace them. Six men are believed to have been in the gang, one of whom was reported to have been wounded during the gun duel.

Very Unusual

A London family found a good deal of cream on a bottle of milk which had been standing overnight. When the milkman called in the morning the servant held it up to the light and said: "Look here, I have never seen anything like this before on your milk."

The man looked at it for a moment, scratched his head, and replied: "Well I don't know what's the matter, but you can throw it out and I'll give you a fresh bottle in its place."

AROUND THE TOWN

Mr. and Mrs. R. Simpson left for the Coast on Monday afternoon.

Mr. Roy Gay is visiting Mr. Ron, and Dundas, of Sunnyslope.

We would like to draw the attention of our readers to this week's editorial on the inside page.

Bucking operations are going ahead in quick shape with the U. G. I. elevator here.

Dr. and Mrs. Reid were visitors with Mr. and Mrs. J. M. Reed this week.

Mr. A. Campbell and family left on Wednesday to spend their holidays at Sylvan Lake.

Mr. H. Aikenhead and Mr. George Thomson motored to Calgary this week.

Mr. and Mrs. W. J. Hillyard were listed among the week and visitors at Sylvan Lake.

Mr. T. Thompson motored to Sylvan Lake to visit his family over the week end.

The Ministerial Conference held here last week end was well attended.

Several people from Didsbury attended the Edmonton Exhibition last week among whom were Mrs. O. I. Hanner, Mr. A. G. Stuber and Mr. A. V. Buckler.

Mr. J. W. Phillips has been out attending to the west and south west of town this week. He adjusted twenty-one claims averaging a thirty per cent. loss.

Quite an improvement is marked in the looks of the town by having the tall grass and weeds on the boulevards cut down. The operation is in charge of Alex Guy.

The big Carstairs Stampede will be held next Wednesday and will be worth while attending as they have a large and varied program for the day.

Mr. Cecil Stuber accompanied by Mrs. Irene Rodaway and Miss Jean Edwards motored to Sylvan Lake last week. Mr. Stuber and Miss Rodaway will spend their holidays with Mrs. Stuber at her cottage at the lake.

Didsbury lost in a baseball game against Innisfail on the home grounds here last Friday night by a 1 to 10. The boys are still pretty well up with the other teams however and chances are good of coming out on top. The last schedule game will be played with Innisfail at Innisfail this Friday night.

President Harding arrived in Vancouver on Thursday. This is the first time a United States Chief Executive has stepped on Dominion soil during term of office. Full military and naval honors are being accorded for him.

Did you mail those two letters I gave you Norah?

"Yes at the post office. But I noticed that you'd put the two cent stamp on the foreign letter and the five cent stamp on the city one."

"Oh dear, what a blunder!"

"But I fixed it all right ma'am. I just changed the addresses on the envelopes."

BINDER CANVASSES

Have you thought of your binder canvasses? The time is rapidly drawing near, when good canvasses will save time. Bring your old ones in and get them repaired and save the expense of new ones. I am prepared to do my best at a reasonable price.

particular people—
Has a sparkling clearness and a smooth richness, for all the chaff and dust is removed by our special process.

The Holiday Season

The summer holiday season has arrived. City and town schools are closed for the long vacation and young Canadian boyhood and girlhood are happy over the prospect of long hours in the open. Thousands of people are moving to summer cottages at lakeside and other resorts, while other thousands, including Boy Scouts, Girl Guides, C.S.P.T., G.C.T.C. and various groups are going into camp.

This is as it should be. Here in Western Canada where long and cold winters make it necessary to keep the houses closely shut for many months, it is of the utmost importance that during the summer months all people, and especially children, should live as much as possible in the open. The health of the people demands it and every possible encouragement should be given to the development of outdoor life and living, with plenty of exercise and amusement. In the cities and larger towns where it is not possible for many families to get away, supervised playgrounds for children should be created.

There are, however, certain dangers to be guarded against at summer cottage resorts and camps. The sanitary conveniences and arrangements do not exist as a rule at such places to which city and town people have been accustomed. There is danger of a too great laxity being developed regarding this all important matter during the camping season, and neglect along this line may result, not in an increase in health and strength, but in the development of disease. It is important that strict attention be paid to sanitary conditions by all parents and those responsible for the conduct and administration of summer resorts and camps.

Another matter calling for watchful attention and care is the water supply. People drink more water in the heat of summer than during the cold of winter, and life and exercise in the open further encourages water consumption. The drinking of lots of water is a good thing, providing the water is pure, but danger lurks in every cup if the water is contaminated. Many a case, and even epidemics, of typhoid fever have resulted from an impure water supply at a summer camp. Extraordinary care should, therefore, be taken regarding this matter.

Full advantage should be taken of the summer camping season to instruct boys and girls in the art of swimming. Every child should be taught how to swim. It must be remembered, however, that most children in this country live remote from bodies of water, and are ignorant of the dangers of bathing, and lacking warning and instruction are inclined to take risks which to the informed are nothing short of foolhardy. Young children should go bathing only when accompanied by an adult who can swim. The provision of such a simple safeguard will keep sorrow from many a home and save valuable little lives to Canada. Young children, too, should be strictly prohibited from going out alone in canoes.

Everybody, old and young alike, should be on guard against one thing—fire. If a camp fire is started, take full precautions against its spread and see that the last spark is extinguished before it is left. Smokers' beware of throwing matches, pipe ashes, cigar and cigarette stubs into grass and leaves. Carelessness in these matters may result in enormous loss of valuable property, and even life.

During the summer holidays spent at resorts and in camps, boys and girls should learn to know the flora and wild birds of the country and be instructed so that they can distinguish between those that are poisonous and harmful and those having healing properties or are good to eat.

In a word, the summer holiday season should not mean a complete relaxation from all study and the gaining of useful knowledge. True, it is a time for rest, fun and outdoor life and exercise, but while enjoying these, and blended with them, there is a wonderful and beautiful opportunity for learning many things which may prove of immense advantage to a person at some unexpected turn or crisis in their lives.

Grand Prize Winner

Yankee Doodle can put another feather in his cap and South America has recognized the world supremacy of a product long known as a leader. A cablegram from Rio de Janeiro brings the news that Phillips' Milk of Magnesia has been awarded the Grand Prize at the Brazilian Centennial International Exposition.

Growth of Poland

Reproduction and immigration together with natural growth have added to the population of Poland, in recent years, until today the republic counts over 30,000,000 inhabitants.

\$50,000 Pearl Found

The discovery at Broom's of a pearl of 100 grains, or comb-shell shape, has attracted the world's attention. It is reported by the chief porting in specie of West Australia.

The pearl, which is valued at \$50,000, surpasses the famous "Star of the West," which weighed 100 grains and was valued at \$25,000.

Many Battleships Broken Up

Nearly one hundred dreadnoughts, cruisers, destroyers and submarines have now been withdrawn from active service by the British admiralty and have been sent for breaking up. Many will become razor blades.

Nerves So Bad That She Would Sit and Cry

Mrs. Mary Hocking, Madoc, Ont., writes:—

"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my heart and nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends; they are a wonderful medicine."

(Mr. J. W. Vince, Druggist of Madoc, Ont., says: "I have sold Mrs. Hocking your Nerve Food, and the medicine has done her much good.")

DR. CHASE'S NERVE FOOD

50 Cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto

Locating Ships Automatically

Instrument Invented In Austria Considered Distinctly Valuable

Austrian inventors have perfected an instrument which automatically and accurately records the passage of any vessel over a given body of water, night or day, to observers who may be located on shore. As an aid in catching smugglers, and a help to coast defence in war time, the invention is regarded as distinctly valuable.

The device consists of a small searchlight sending a ray no bigger than a pencil across the space to be controlled, and a receiving apparatus at the other end containing a light-sensitive selenium cell. Whenever a moving vessel interrupts the rays of the searchlight, the selenium cell closes a relay which starts a bell alarm, or operates a recording device.

The instrument was tested recently between two points three and one half miles apart in the waters of Vienna, and the passage of every object, as well as every person, was duly recorded. These tests were made in broad daylight, with a 50 candlepower incandescent lamp as the source of light.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Children's delicate constitutions, their colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house, feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if the trouble comes suddenly, as it generally does, the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Impressive

"What do you think of his lecture?"
"It was very impressive."
"True, I couldn't understand a word of it, either."

Wretched from Asthma. Strength of body and vigor of mind are irreparably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissolves the cloud by removing the cause. It does relieve. It does restore the sufferer to normal, bodily trim and mental brightness.

Pine leathers do not make fine birds, but they attract attention in some birds that would otherwise go unnoticed.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Eclectic Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the oil taken according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Pati's Argument

Put in an argument maintained that the sun did not revolve round the earth.

"How, then," asked his opponent, "after setting in the west at night, does it rise in the east in the morning?" Why, if it does not travel underneath the globe, do we not see it at night coming back?" "Have sense, man," said Pat compassionately. "How could we see it in the dark?"

Mindard's Liniment for Dandruff

British Law On Solomon Island

Malaya Natives Know Flag Stands for Sternest Justice

Perhaps the queerest job in the world is held by W. R. Bell, district officer of Malaya, one of the Solomon Islands in the Pacific. He is the only white man in a population of 50,000. He rules his little kingdom with 20 police boys. He administers British law with a due regard for the islanders' outlook. He knows that a crime in the eyes of the law may be none in the eyes of a native—that a heavy hand would raise rebellion and a slack one permit it; and so the flag that floats above his canoe stands for the Solomon islander for sternest justice and most perfect understanding. Malaya is 120 miles long by 10 miles wide.

Ask for Mindard's and take no other.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Mann-Weisselstein of Solingen. While it is well known that Aspirin means Bayer Manufacture, to shield the public against imitations, the United States Food and Drug Administration will be pleased with their general trade mark, the "Bayer Cross."

Conservative Party Will Form The Next Government Of Ontario

Toronto.—The Lieutenant-Governor of Ontario has formally invited Hon. G. Howard Ferguson, leader of the Conservative party, which was swept into power by a huge majority, to form the next government.

This action was taken after Premier E. C. Dwyer, following a meeting of the Cabinet, had tendered his resignation to the Lieutenant-Governor, to take effect July 15.

Mr. Ferguson, in accepting the responsibilities of office, stated that he would be ready to assume the Premiership as soon as the position was vacated by Mr. Dwyer. According to latest reports from the various constituencies, the Conservatives will have 75 members in the Legislature. The United Farmers will be the second largest group with 17 representatives, the Liberals having fallen into third place with 14. There will be four Labor members and one Independent. The advance of the United Farmers to second place was brought about by the election of Hon. Douglas Carmichael in Grey County. Hon. H. C. Nixon in North York, and John G. Leithbridge in West Midlands.

In addition to the Prime Minister, members of the Government defeated were: Hon. Peter Smith, Provincial Treasurer; Hon. R. L. Grant, Minister of Education; Hon. W. R. Rolin, Minister of Labor; and Hon. Henry Mills, Minister of Mines.

Premier Dwyer declared that defeat was not a pleasant thing, but a public man should accept it philosophically. He had the personal satisfaction, he said, of looking back, mentally, upon a cleanly conducted Government and a fair election campaign, all of which meant a clearness of conscience that was everything to a man at such a time.

Mr. Dwyer attributed his defeat to the wet vote. The "wets" in the province, he believed, constituted a sufficiently strong element to elect any one party with which they aligned themselves.

Hon. W. E. Lacey, who, as attorney-general, was a prominent figure in the defeated Government, declared that a rumor to the effect that he would resign his seat rather than go into opposition, was without foundation.

Caterpillars Delay Train

Great Swarm Covered C.P.R. Track Near Revelstoke, B.C.

Vancouver, B.C.—An immense swarm of caterpillars which literally covered the railway tracks in the St. Bonet Canyon, east of Revelstoke, recently delayed the Canadian Pacific Railway train service for some time. So great was the swarm that the engine ploughed its way through the train was brought to a stop by the crease. Section crews worked for many hours wiping the grease from the rails, and it was necessary to split the train into three sections before it could proceed.

Georgia's Outer Law

Atlanta, Ga.—Holding that it was not against the laws of Georgia to open graves and remove coffins, the Court of Appeals has granted a new trial to Sam Ware, a negro undertaker, who was recently sentenced to ten years' imprisonment for removing a body to obtain for the coffin, which he is alleged to have resold.

Storm Takes Toll In Ontario

Toronto.—Five persons lost their lives, according to reports received here, in the violent storm which struck Toronto and Western Ontario uprooting trees, shattering buildings and demolishing telegraph and telephone communication. Property damage will exceed one million dollars.

Backus Plea Withheld

London.—The Judicial Committee of the Privy Council has reserved judgment in the appeal of the Fort Frances Pulp and Paper Company against the judgment awarded the Manitoba Free Press Company, Limited, and others in the claim for damages paid for loss in excess of the price fixed by the paper control board.

W. N. U. 1479

Would Tap Coal Fields

Railway to Reach Fuel Deposits in Northern Alberta and British Columbia

Ottawa.—The feasibility of a projected railway from the Peace River district to connect with the main line of the National Railway system, in order to tap extensive fields of anthracite or semi-anthracite coal existing in Northern Alberta and British Columbia, is suggested in the final report of the Senate Committee, which has been investigating Canada's fuel supply.

The committee recommends that the Dominion Fuel Board be empowered to co-operate with transportation and other interests with a view to reducing freight rates, increasing to the utmost, the use of Canadian coal in Canada, and educating the public to use Canadian coal.

While the difficulty of transportation of "domestic" coal to Central Canada is not minimized, it is suggested that with an increased output and mining operations carried on the year round the cost of production would be reduced.

Will Strengthen Air Force

British Government Decides to Add Thirty-four Squadrons

London.—Prime Minister Baldwin announced in the House of Commons that the Government had decided to establish a home defence air force sufficiently strong to defend the country adequately from attack by the strongest air force within striking distance.

The Premier said the home defence force would consist of 32 squadrons. This would add 31 squadrons to the authorized strength of the Royal Air Force.

The force, continued the Premier, would be organized partly on a regular permanent military basis and partly on a reserve basis. The details of organization would be arranged with a view to the possibility of subsequent expansion. The question should be re-examined in the future, he said, in the light of the then existing air strength of foreign powers. Great Britain, in conformity with her obligations under the covenant of the League of Nations, would gladly co-operate with other governments in limiting the strength of air armaments on terms similar to the Treaty of Washington.

British Require Passports

Britain Is Not Asking Mexico For Any Concessions

London.—The statement was made in the House of Commons by one of the members, that the United States citizens were allowed to enter Mexico without passports and the same privilege was asked for Britons. Ronald McNeill, Under-Secretary for Foreign Affairs, replied that he had no official information of the subject, but believed such local arrangements between the United States and Mexico existed. The British Government, however, was not prepared to ask for a similar concession as that would lead to a demand for reciprocity which could not be accorded.

Secretary of Technical Agriculturists

Saskatoon, Sask.—Prof. H. Grimley was elected secretary of the Canadian Society of Technical Agriculturists at the meeting held by the new executive at the close of the convention here. Dr. J. W. Robertson, Ottawa, received a fellowship, but did not receive \$500, as previously announced. A scholarship of \$500 for post-graduate work in agriculture was awarded to W. P. Hanna, of the University of Alberta.

Will Study in Prison

London. Prisoners in Brixton have been improving themselves educationally. They are attending classes in French, shorthand and bookkeeping. The courses were inaugurated recently. They have an enrollment of more than 50.

WESTERN EDITORS

S. I. May, Editor of The Review, Cardston, Alberta.

Want Fisheries Pact Approved

U.S. Canadian Treaty Provides Protection in North Pacific

Ottawa.—Hon. Ernest Lapointe, Minister of Marine, will bring in legislation to give effect to the North Pacific halibut fisheries treaty recently concluded between the United States and Canada and the signature of which gave rise to considerable controversy.

In accordance with the treaty, the bill will provide for a close season for halibut in the North Pacific and the appointment of an international fisheries commission of four members, two to be appointed by the United States and two by Canada. The bill will also make it an offence for any fishing vessel which engages in prohibited fishing to use a Canadian port. Premier King has also given notice of motion providing for approval of the treaty by Parliament.

Start Drive Against Wild Horse Menace

B.C. Grazing Commission Inaugurates Campaign to Clear Ranges

Victoria, B.C.—A campaign to clear British Columbia stock ranges of wild horses has been initiated by the Provincial Government under Grazing Commissioner E. P. MacKenzie.

Stockmen declare there are thousands of stray horses wandering over the grazing lands and that they are a menace to domesticated horses.

Under a clause in the Animals Act, stockmen are given authority to shoot horses straying on their ranges, but owing to the possibility of shooting their neighbor's stock this regulation has been virtually ignored. The present drive against wild horses is being launched under authority given by the Transport Act.

Windstorm Hits New York

New York.—Reports of four deaths, many injured persons, and heavy property damage followed in the wake of an intense electrical wind and hail storm that swept New York and vicinity.

Additional Estimates Totalling Large Sums Are Tabled In House

Evidence Before

Grain Commission

Hon. Frank Oliver Testifies at Opening Session

Edmonton, Alta.—First session of the Royal Commission appointed by the Dominion Government to inquire and report upon the handling of the grain trade in Canada, opened here and evidence was received from a number of farmers as to grievances as they had found them. Restricting combines between grain buyers and operators, millers and banks was charged by two of the witnesses, while A. Clark, Freight Supervisor for the Alberta Government, complained of that section in the Grain Act which limited to 24 hours the time that a car was at the disposition of a farmer loading grain over a platform.

Hon. Frank Oliver appeared before the commission in connection with the western grain route and also spoke of the value of the Hudson Bay route to the prairie farmer. Mr. Oliver made the statement that the railway grade, which has always had to bear the brunt of the argument for greater transportation costs on the mountain route, is actually greater to Port William than to Vancouver or Prince Rupert. That is, that the amount of actual uplift had to be overcome is greater than that of the eastern route. This was a matter of principle and should be established by the Government, and not by the railway commission.

U.S. Will Continue

To Enforce Prohibition

President Says Pressure Will Not Be Relaxed

Denver, Colo.—President Harding, served notice in an address here that the Government was determined to enforce the prohibition law even should the burden of enforcement continue to be increasingly thrown upon it by the various states.

He vetoed the conviction not only that the prohibition amendment will not be repealed but whatever changes may be made in the Volstead Act will represent the sincere purpose of effective enforcement rather than moderation of the general policy.

Shipping Saskatchewan Wool

Regina.—The second carload of wool has been shipped from the Saskatchewan Co-operative Wool Growers' warehouse in Weston, Ont. The season looks good according to W. W. Thomson, M. P. Thomson has gone to Portage la Prairie and will superintend the shipping of the first carload of wool from that point this year.

Ottawa.—Further supplementary estimates totalling \$14,711,251, were tabled in the House by Hon. W. S. Fielding, Minister of Finance.

Principal among the items are: \$25,000 for expenditures in connection with trial shipments of chilled test and fat cattle to Great Britain; \$550,000 further required for war pensions; \$87,500 annuity to Dr. F. G. Banning, discoverer of insulin; \$450,000 for construction on the Hudson's Bay Railway; and \$80,000 refund to J. D. McCarthy and Company in connection with the same project; \$50,000 Welland canal extension (Port Colborne elevator); \$60,000 to provide the difference between military rates, with fuel and other allowances received, and full railway rates of pay for certain railway employees employed on the lines between Winnipeg and Fort William; \$50,000 for surveys and investigation of a railway from a point in Canadian National areas to the Peace River.

There is a vote of \$80,000 for Toronto harbor improvements and one of \$192,200 for harbor improvements at Port William. Votes for public works, chargeable to income, in the various provinces, total \$2,465,561.

To assist in the conservation and development of deep sea fishing, there is a vote of \$70,000, and one of \$57,596 for the new appeal boards under soldiers' civil re-establishment and the board of pension commissioners.

A vote of \$1,000,000 is provided for loans to provinces to encourage the erection of dwelling houses, and there is a further vote of \$150,000 for the British Empire Exhibition.

Other items are: Grant towards the expenses of the Canadian athletic team at the Olympic games of 1924, \$15,000.

Expenses of delegation to the Imperial conference and the Imperial economic conference, \$25,000.

Royal Commission to enquire into grain trade, \$50,000.

Additional amount for Canadian exhibition in France, \$60,000.

Towards construction of a cabin elevator at Halifax and Phoenix, \$200,000 each.

British and foreign news services under Department of Trade and Commerce, \$21,333.34.

Grant to Burrard Inlet Tunnel and Bridge Commission towards construction of a bridge over the second narrows on Burrard Inlet, B.C.

Eight deputy ministers and departmental heads have their salaries increased to \$8,000.

The supplementary also contain a vote of \$32,000 to defray the cost of installing a wireless telephony service and maintaining a life-saving vessel on the west coast of Vancouver Island.

Uniform Text-Book

Geography May Soon Be Taught All Over Canada From Same Book

Toronto, Ont.—Geography may soon be taught to children all over Canada from the same text book. Less than a year ago a new geography and atlas were published by Prof. G. A. Cornish of the University of Toronto, and already six of the nine provinces have authorized its use. Following the authorization of the geography by the Department of Education of British Columbia, the Provincial Government has invited Prof. Cornish to lecture at the summer school for teachers at Victoria. He will journey back to Quebec, which province has just approved the new geography.

Bonar Law's Health

London.—Premier Bonar Law's secretary, replying to an inquiry by the National Workmen's Council, writes:

"The fact that Mr. Bonar Law's health necessitated his resigning the Premiership naturally may cause for great anxiety, but there is no reason to suppose that with rest and treatment he should not regain his health."

Russian Patriarch Dead

Ulm. According to statements printed in the newspapers here, Archbishop Tikhon, former patriarch of all Russia, died in prison on June 16.

WHEAT POOL ACTIVITIES

The Vancouver Daily Sun in their editorial of Friday, July 13th, have a very good write up on the most pressing question being faced today by the farmers of Canada in general and of the West in particular. Only by concerted effort and action by the farmers themselves throughout this country of ours, can prosperity come to us. In organizing a pool for their products is one of the big steps in this direction. Several districts are already making definite steps toward this end and a successful outcome is much to be wished for.

Economics of Grain vs. Economics of Politics

Wheat at Chicago has fallen under a dollar in price and American farmers may lose a total of \$600,000 on the 1923 crop. This means that the purchasing power of American farmers will be reduced to practically nil and that production in subsequent years will be seriously affected.

Farmers in Western Canada can have no guarantee that a similar economic tragedy will not befall them until co-operative marketing is adopted generally in the West and they are able to market their wheat by co-operation at point of consumption rather than market it individually at point of production.

Until the western farmer prospers Canada cannot prosper. The only protection Canada can offer to the incalculably valuable farming industry in co-operative marketing. It is the first duty of government to

see that every Western farmer produces his grain by scientific methods as cheaply as possible and is then enabled to sell it for a little more than it cost him.

Western Canada should have the benefit of the best brains money can provide to work out a workable co-operative marketing plan for Western wheat.

Aaron Saprio of San Francisco is the recognized genius of co-operative marketing on this continent. He has formed co-operative groups in California so successful that growers who hitherto were only receiving 7 cents of the consumer dollar are now receiving 58 cents of it. By introducing proper notions of marketing he has raised the standard of living in whole districts in the United States.

He could do the same for Western wheat—and he should be invited to do it.

In seeking relief the West has organized for the economics of oil, which has helped to one. It is time now to organize for the economics of grain.

Only by applying the soundest principles of the economics of grain through some co-operative system can the West guarantee itself against the disaster which has overtaken American farmers and look ahead for the first time along the road to permanent prosperity.

Since the above was published the Calgary Herald, working in co-operation with the Edmonton Journal has arranged with Aaron Saprio to come to Alberta to give the farmers of this province the benefit of his wide expert knowledge of co-op-

erative selling pools.

The Herald and the Journal took action to bring Mr. Saprio to Alberta only after being convinced that neither the Alberta government nor the U. F. A. was doing anything in this direction.

Mr. Saprio's acceptance has been secured and details of his program while in Alberta are now being worked out by the Herald and the Journal.

The Herald and the Journal want the assistance of the farmers of this province in making the provincial tour of Mr. Saprio a great and helpful success.

Aaron Saprio will be in Calgary for a conference and meeting Saturday, August 1, and will then go to Edmonton and hold meetings there, and also at two other points in Alberta before going to Saskatchewan.

Olds and Bowden Organize Demand among farmers for a voluntary wheat pool which will function this year, as well as for an organization for the centralization of co-operative marketing of all farm products, is not confined to Southern Alberta but has spread to the central areas, the farmers of Olds and Bowden and other districts having united in plans for an organization for 1923.

At a meeting of farmers of the districts of Olds and Bowden, most of them being members of the United Farmers of Alberta, a form of contract was drawn up and many of the farmers signed.

TAR SANDS FOR PAVEMENTS

Great interest has attached to the experiments being carried on during the past week at the Edmonton Exhibition to establish the feasibility of the tar sands from McMurtry for road making purposes. At the exhibition grounds a strip of pavement was laid, the raw tar sands being used for the purpose just as they were taken from the ground. A crushed gravel base was laid, and on top of this a mixture of from 50 to 75 per cent. crushed gravel, with the heated tar sands was rolled on. In a few minutes the pavement was hard enough to walk on, and appeared to make a very satisfactory road.

Another set of experiments is being carried on at the University. In these experiments the tar is being extracted from the tar sands, and then mixed with different classes of road material. The object of this is to establish the feasibility of successfully extracting the tar from the sands, which would eliminate the necessity of paying freight on the sand from McMurtry. Both experiments appear to be successful, but some further time will be required to establish their permanent success.

If the experiment proves that the tar sands can be used successfully for road making, the cost of road pavement in the province will be greatly reduced. The officials of the Provincial Government, as well as of the cities of the province are

watching the results with considerable interest, as it concerns the development of one of Alberta's best resources.

AROUND THE CIRCLE

Rags make paper
Paper makes money
Money makes banks
Banks make loans
Loans make poverty, and
Poverty makes rags.

A silly young punk
Drank a bottle of ink
To quiet a thirsting ambition.
And before the kid knew
What to say or to do
He was well on the road to perdition.

All hope they gave up

TEA—We have just received a special blend of tea, if you are a tea crank come in and we will give you some to try it out.

YOURS FOR GOOD VALUE

A. G. STUDER

YOU GET THE AMOUNT OF THAT CHEQUE

We have made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN POWER FARMER whereby we are able to offer that farm magazine together with our own weekly at the one price for both papers.

The CANADIAN POWER FARMER is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experience on the operation of all kinds of farm machinery from a washing-machine to a tractor. Its editorial staff consists of men thoroughly familiar with every branch of farming both from the practical and theoretical standpoint. Every month the magazine publishes experiences sent in by readers. Many of these are short cut findings that are real money savers to farmers.

This offer may be withdrawn at any time. Without doubt your intention is to reserve for this week, then why not take advantage now. Your subscription to this weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as this weekly alone. This is where you get the \$1.50.

Mail your cheque or drop into our office the first time you are in town.

Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living and brought up their families. It means hard work but today they are independent.

The quality and the quantity of the products and the cost of production in competitive countries is beyond our control.

Prices of agricultural products are regulated by world supply and demand.

Hence, decreasing production will not help the Canadian farmer.

Money in Mixed Farming

In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 25c as against the Fort William price of 37c per bushel. Farmers marketing their corn, grain in this way lower marketing cost, have a sure market and make money on their grain while at the same time they market their roughage, otherwise wasted. The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Fair, Ottawa, after paying

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep

As money-makers, sheep are hard to beat. In every Province, from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

Poultry Pays

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets its chickens in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Association has its own markets in the same way, thus saving numerous plum in their local market.

There is a market for good Canadian horses, whether light or draught.

Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it to the south. Canadian experts seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our choice butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the practical marketing necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

Have Faith in Canada

Neuralgia Conquered Its Pain Destroyed

Magical Results Come When You Apply

NERVILINE IT ACTS QUICKLY

Mr. W. T. Greenway, formerly connected with the Great Newspaper staff, has written: "For twenty years, no have used Nerviline in my home, and not for the world would I be without it. It has been a remedy for all pain, neuralgia, toothache, rheumatism and disorders generally. A box of Nerviline is essential and quick to relieve all suffering. Remember, this is not a medicine, it is a remedy, and you will get genuine results—fast and all the time."

WORLD HAPPENINGS BRIEFLY TOLD

It is not the intention of the Government to introduce legislation this session to assist the woolen industry in Canada. Hon. W. S. Fielding told the House of Commons.

The schooner Bowdoin, bearing Capt. MacMillan and his party on their way to resume scientific work and explorations in the Arctic sailed from Vancouver, B.C., on June 25.

With the departure of twelve hundred emigrants from the Clyde, for Canada and the United States, a total of 1,500 left Glasgow for new lands in two days.

A convention extending for five years, the Anglo-American Arbitration Treaty of 1908, has been signed at Washington by Secretary Hughes and Sir Auckland Geddes, the British ambassador.

The United States Treasury will collect approximately \$500,000,000 in customs receipts this year, Frederick J. H. Kracke, federal appraiser, reports. This will be the largest sum ever taken in.

As a result of the assassination of Vasilko Vorovsky, the Soviet representative at the Lausanne Peace Conference, Russia has decided to boycott Switzerland. All business deals with the Swiss are to be cancelled.

Wide and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolutely clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

Veteran Editor Returns

Sir John Merry Lesage, managing editor of the London Daily Telegraph, retired at the end of June. He is now eighty-six years old and until the last few weeks has been in daily attendance at his office. His period of control of the newspaper, however, is almost equalled by C. P. Scott, managing editor of the Manchester Guardian since 1872.

There are 2,500 commercial orchards in the Okanagan Valley, B.C.

Virgin Islands Have Three-Year Drought

Petition U. S. Government For Money To Build Reservoirs

The Virgin Islands, which the United States bought from Denmark in 1917, have suffered greatly in the last three years from lack of rain. Both the sugar estate and the cattle industry, on which the prosperity of the islands largely depends, have been near complete failure, and the commerce of the islands has been at a low ebb. The islanders are asking Congress to appropriate money for a system of ditches and reservoirs to preserve the islands from future mischance of the kind.

Strengthens the Stomach Improves Digestion

By Clearing the System of Sour, Fermenting Wastes; Dr. Hamilton's Pills Quickly Restore Health

If fermentation is at work in the stomach and has prevented the food from being properly digested, the most frequent ailment of the day. After once using Dr. Hamilton's Pills the stomach is cleared of the sour, fermenting matter that causes gas, heartburn, indigestion and headache. You will be pleasantly surprised at the smooth, easy way in which Hamilton's Pills clear the system. Remember, this is not a medicine, it is a remedy, and you will get genuine results—fast and all the time.

Ray Clears the System of Sour, Fermenting Wastes; Dr. Hamilton's Pills Quickly Restore Health

It is not the intention of the Government to introduce legislation this session to assist the woolen industry in Canada. Hon. W. S. Fielding told the House of Commons.

THIN, IMPURE BLOOD

Means a General Weakness and Loss of Health

If people would realize the importance of keeping the blood rich and pure there would be less sickness. The blood is the means through which the nourishment secured from food reaches the different parts of the body. If the blood is impure, the nourishment that reaches the nerves and organs of the body is tainted with poison and disease follows. The blood is also the medium by which the body gets rid of disease. If the blood is thin and watery the power of removing disease is weakened. If you are weak and run down, if your nerves are tired, if you lack ambition, have no appetite, and are short of breath after slight exertion, the trouble is almost always due to poor blood. In case of this kind you should take Dr. Williams' Pink Pills to build up the blood. They help to enrich and purify the blood from first to last. In this way bring new health and strength to weak, run down people. Mr. John Thompson, Knoxville, Tenn., tells of the benefit Dr. Williams' Pink Pills were to him, as follows: "I was very weak and had been unable to walk and had to be helped upstairs. I had no appetite and slept poorly at night. I finally went to a doctor who told me the trouble was lack of blood and that my condition was serious. He gave me medicine, which I took faithfully, but it did not improve. I was advised to try Dr. Williams' Pink Pills and after I had taken two or three boxes (told that they were helping me) I could eat better and I slept better. I continued using the pills for some time longer and quite recovered myself. I am now strong and feel that I have to thank Dr. Williams' Pink Pills that I am not at all old today."

You can get these pills through any dealer in medicine or by mail, post-paid, at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Rumania Capital

Hermannstadt is considered Much Better Location Than Bucharest. Hermannstadt, a city in Transylvania, 18 miles northwest of Bucharest, is being considered as the new capital of Greater Rumania. For a long time now Rumanians have felt that the enormously increased number of the country demanded a capital nearer the western states of Europe than Bucharest. They want to make of Hermannstadt, which in Rumania is called Sibiu, a sort of western capital.

Hermannstadt was founded in the twelfth century, and has been splendidly developed by the Austrians. It is a charming modern city with a series of the public squares, parks, schools, churches, libraries and theatres. It is much cleaner than any of the cities of old Rumania, and has a much more healthful climate.

Red Cross Outpost

Sick Trappers to Have Hospital in Northern Saskatchewan

To provide a haven where sick trappers, half-breeds and other natives of the northern woods of the province may rest and receive medical treatment, and to provide a maternity home for the wives of settler residents of the River, a town at the "end of the trail" north of Prince Albert are busy at work remodeling an abandoned hospital that was once an adjunct to a lumber camp. When alterations are completed the hospital will be opened as a Red Cross outpost.

The opening will probably not take place until fall, as that is the time when the north country begins to show signs of activity. A hospital is needed constantly during the winter, for scarcely a week passes that there is not a case of frostbite or other accident.

Catarrah Conditions

Catarrah is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the blood, cleans the system, purifies the blood, and cures the disease. HALL'S CATARRH MEDICINE is the only medicine that cures the disease. It is sold by all druggists.

CIRCLE TOURS OF UNRIVALED SPLENDOR

ENDLESS SCENIC PANORAMA
AWAITING TOURISTS OVER
C.P.R. LINES

Picture the quiet beauty of England's Lake and the grandeur of the Atlantic coast and the towering splendor of Swiss mountains and you will be able to form some idea of the endless scenic panorama which awaits the vacationists taking THE CIRCLE TOURS OF THE CANADIAN PACIFIC.

These delightful tours may be made through Calgary, entering the Rockies at the Gap, through beautiful Banff, to Lake Louise and Glacier, leaving the main line for a cruise down the Arrow Lakes, Kootenay Lake and back via The Crow's Nest Line. The second tour takes in the same resorts, but extends further through Selkirk and down the picturesque Okanagan Lake to Penticton, returning through the Crow's Nest Line. (Both tours apply in the reverse direction if desired.)

These wonderful tours are moderately priced, and offer as well as a picture tour of scenic beauty, unrivalled comfort of travel. From the moment of starting until the hour of returning the vacationist is assured of a holiday long to be remembered, for the comprehensive nature of the holiday entertainment and the de luxe travelling arrangements which enable the fullest possible enjoyment to be had from start to finish.

Excursion rates for these tours are on sale daily to September 30th, allowing stopovers at any of the delightful resorts. The return limit is October 31st.

Catch of Sea Fish

The total quantity of sea fish landed on both coasts during the month of April was 167,636 cwts., valued at \$932,216 compared with 251,341 cwts., valued at \$1,121,465 in the same month last year.

Auto Monopolizes Accident Column

Horse Used to Attract Attention as Source of News

A horse ran away in Perth County a few days ago. The driver was thrown from the buggy and was instantly killed.

In the horse coming back into the accident column of the newspaper? Many people may have forgotten that there was a time when the horse contributed liberally to the news of the day. That was before the coming of the automobile. For a time while the automobile was seeking to establish itself, the horse continued to fight for recognition; but eventually he seemed to give up the struggle and in time he ceased to attract attention as a source of news. The automobile acquired a monopoly as a cause of traffic accidents. Even the railways recognized that a change had come and they settled down to the business of carrying people instead of killing them, with occasional protests.

It seems necessary to remind the present generation that before the age of motor vehicles there were accidents—Woodstock Sentinel-Review

Corns, Warts, Bunions, Painlessly Removed

Don't limp any longer, don't suffer another hour from corns. The oldest remedy and the best, the one that for fifty years has proved a true success, will lift out your corns in a hurry. It is the only remedy that will remove a corn, wart, bunion, or any other ailment of the foot.

Was Paid in Counterfeit. The Evening Mail published a story of a young Halifax ship captain who spent the winter and spring months in the St. John's market, where when he came to Halifax to deposit his \$100,000 profits, found the bank would take only \$20,000. The rest was counterfeit.

HER BABY SUFFERED WITH SUMMER COMPLAINT

"A fact mother must face is that summer complaint with the prostration, often verging on collapse, which sometimes accompanies this disease makes it one of the most serious and dangerous to contend with during the hot months."

Thousands of infants die annually whose lives could have no doubt been saved by the timely use of Dr. Fowler's Extract of Wild Strawberry, and it has been the experience of thousands of mothers during the past 75 years that this valuable preparation has been on the market, that it is the safest and most effective remedy for Summer Complaint in infants of the bowels.

Mrs. S. L. Lanthorne, Great West, Ont., writes: "My baby, when a year old, was suffering with summer complaint. Two doctors attended him, but nothing would do but vomiting and diarrhoea. A friend told me to try Dr. Fowler's Extract of Wild Strawberry. I did so and the second day the baby was better and I can say it saved my baby's life."

I wouldn't be without a bottle of Dr. Fowler's in the house to avoid gold."

Price 50c a bottle, put up only by The T. M. B. Co., Limited, Toronto, Ont.

Coming to Canada

Many Ex-Officers of British Army Have Decided to Settle Here

The movement of ex-officers of the British army to Canada continues, according to a dispatch received from London, England. Major Ashton reports that 25, with an average capital of £1,000, have been accepted by the settlement board, with 10 more in sight. Lt. Col. Jones, of the Canadian government, who recently arrived in London from India, states that 10 ex-officer army officers are also going to Canada. Their average age is 30 and the average capital £2,000. Half of them are taking their families with them.

Rain corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Ancient Ink Preserved From earliest times writing ink has been made of iron and galls, with gum, or with galls, acid, sulphate of iron and gum. Ink of the latter kind was found among the ruins of Pompeii, still liquid after having remained unchanged in its container for 1,700 years.

Minard's Liniment Heals Cuts

ECZEMA N RASH FOR 9 YEARS

On Scalp, Arms and Limbs. Lost Rest, Cuticura Heals.

"Eczema broke out in a rash on my scalp, arms and limbs. The itching and burning were terrible. My hair became matted and fell out in handfuls. My clothing aggravated the itching and I could not rest at night on account of the irritation. The trouble lasted about nine years. My mother tried many different remedies but they did no good. We began using Cuticura Soap and Ointment which completely healed me." (Signed) Miss Beatrice M. Closson, No. Sedgwick, Maine, Feb. 20, 1922.

Give Cuticura Soap, Ointment and Talcum the care of your skin.

LIQUOR PLEBISCITE

MODERATION LEAGUE OF ALBERTA'S
VIEWS OF THE PRESENT
SITUATION.

If the mere passing of a law can be so potent as to wipe away the drink evil, we should bring before our legislature all of our social evils, and we could then dispense with the heavy expenses of churches.

The Alberta Liquor Act has not prohibited the use of liquor as a beverage, and under it the government of Alberta has lost control of the sale of liquor. So true is this that the bootlegger has now no real opposition.

For this reason the mass of the decent citizens of Alberta will, on November 5th next, replace the present Liquor Act of Alberta by government control and sale of all liquors by marking their ballots "1" for clause "D."

BERGEN-NICHE VALLEY

The crop outlook is the best we have had for three years. Plenty of grass and fat horses and cattle.

Bergen had an enjoyable picnic the last Friday in June, celebrating the first of their summer vacation.

Fred Edmussen's are rejoicing over the arrival of a nine pound boy, June 25th; Ira Gamble, a daughter, on July 11th, from its display of temper it takes after its mother.

Bergen has a few new families that add to the welfare of the community. Mr. Plant, on the Knudsvig place, the Ellis boys on C. B. Post place, Alexander Blain, on N. E. of 33.31. 6.5

Joe Parnell, in some way broke a rib and has gone to Calgary to get some medical aid.

The tarpaulin west of the "West End Boulevard" is impassable, or impossible and if you think not you might try it out and see.

Ben Luthkens has been chosen pathmaster by the Township trustees.

Miss Wolf and Miss Horber have gone to Didsbury to attend camp meetings, and there will be no church Sunday.

Niche Creek has not been low enough to encourage fishing this summer, and the last two years it had ceased running in places, and its mouth was quite dry. The horse flies and mosquitoes seem to be having a fine time, and the effect on the stock seems to be enervating, they don't seem to tarry long in one place.

We had a real rain Thursday. It did not last long but it was some precipitation.

Some Advice

If some misfortune comes your way—

Your wife confined in bed,

It may develop on you, my friend,

To make a batch of bread.

You'd better see about the yeast

And move around real early.

Roll up your sleeves and huckle in

Resolved to do or die.

Ten years ago is not just now—

Your culinary art,

Like other food, phantastic things

Is likely to depart.

The kind your mother used to

make,

Your close communion pie;

May not turn out just as you think.

No matter how you try.

Don't put the yeast cakes on to

boil.

Like fresh eggs, corn, or spuds,

Most vegetables, the people eat.

Most somehow change their taste.

Now slap-jacks look like "candy-

meat."

Some sour milk I suppose;

Fine teaspoonful of soda

So they can arise, arise,

I don't know just how many quarts.

Of flour I should include;

Nor how much salt and pepper

To give them latitude.

There must be some ingredient

To live on the taste;

And give them just that flavor.

That comes with undue haste.

There comes a time in men's af-

fairs

If taken at the tide,

May make of you a millionaire

Or something else beside.

And haven't you now, dearest

friend,

Some place or other read,

How fools rush into places

Where angels fear to tread?

If you pretend to be my friend

No matter how well read.

Just be a little careful

When you ask about the bread.

NOTICE

TENDERS WANTED for the painting of the Westerdale school. Tenders to provide paint and labour. Work consists of painting interior of schoolhouse two coats, barn, shed and outbuilding one coat, work to be done before August 15. Lowest tender not necessarily accepted. MILLINERY SALE

To continue at Mrs. Peterson's. All trimmed and ready to wear hats to be cleared off at half price.

Those having accounts with Mrs. Peterson will please call and settle without further notice.

Mrs. Peterson

We have taken over the local agency for Robin Hood Flour and cereals. If you have never used this flour we will be pleased to have you try it. Every sack is guaranteed and if you are not satisfied we will gladly refund the purchase price. Robin Hood sells at 3.85 per sack and is well worth the little extra cost. We still handle

Household at \$3.80

FEEDS—Feeds have arrived: bran at \$1.45 and shorts at \$1.55. Shorts are scarce so we advise getting what you need at once.

FRUIT—Many have delayed getting their berries. The season is well on and prices are advancing, if you want Raspberries or Loganberries do not delay. Phone us your requirements.

IN MEMORIAM

In memory of little Katie Cellars, who died of burns received July 21st 1923.

We often sit and think of her
When we are all alone,
The memory is the only thing
That grief can call its own.
The moon and stars are shining
On her cold and silent grave,
Remembering her the one we love
The one we could not save.
It's hard to part with her we loved,

Though parting days will come,
And only those that love can tell
The pains of the last farewell.
Days of sadness will come over us,
Tears in silence often flow,
For the memory keeps you near us,
Though you left us one year ago.
Friends may think that we forget
You
When at times they see us smile,
But they little know the sorrow
That the smile holds all the while.
Inserted by her Aunt Esther and
Grandpa.
